PROFILE

I am a dynamic Computer Science student currently in my third semester at Aptech CPISM and pursuing a Bachelor of Science in Computer Science (BSCS) at HITEC University, currently in my second year. Beyond my academic part-time responsibilities, I have a solid foundation in front-end development. I have successfully developed multiple e-commerce and RDBMS applications using a diverse tech stack, including Python Flask, PHP, Laravel, NextJS, ReactJS, TailWindCSS, BootStrap, and JQuery. Additionally, I am well-versed in Python and have extensive experience working with the discord.js library. My proficiency extends to Adobe Illustrator, enabling me to trace icons and images effortlessly, along with basic video editing skills. Committed to delivering high-quality work at budget-friendly prices, I bring a unique blend of academic rigor and practical experience to the table. Aspiring to contribute my full stack development skills, I am poised to make a positive impact in any professional setting.
